

RLS TSCA Statement

Toxic Substances Control Act (TSCA) is USA legislation, prepared by Environmental Protection Agency (EPA). It is addressing the production, importation, use, and disposal of specific chemicals that are imposing unreasonable risk to the health or environment.

TSCA currently fully or partially restricts 14 substances or substance families:

- Asbestos
- Lead (in paint and paint waste)
- Polychlorinated biphenyls (PCBs)
- Dioxins
- Chlorofluorocarbons (CFCs)
- Metallic mercury (in consumer products)
- Formaldehyde
- Nitrites (in metalworking fluids)
- Hexavalent chromium compounds (on metals used in water treatment)
- Phenol, Isopropylated Phosphate (3:1) (PIP 3:1)
- Decabromodiphenyl ether (DecaBDE)
- 2,4,6-Tri-tert-butylphenol (2,4,6 TTBP)
- Hexachlorobutadiene (HCBd)
- Pentachlorothiophenol (PCTP)

RLS products are not chemical substances. RLS products are manufactured from standard electronic components with optional aluminum, steel or zinc housing. No component or material is used in non-standard way.

RLS is not producing or buying any of the listed substances.

RLS is not using any of the listed substances in products or in production processes.

RLS is not requiring any use of the listed substances from suppliers.

We have gathered information on materials used in the RLS products, all materials are compliant.

Therefore, we declare RLS products are not imposing unreasonable risk to the health or environment.

RLS is committed to managing the use of chemical substances in accordance with governmental regulations, industry standards, and customer-specific requirements to ensure that all aspects of our business have the least harmful effect on the environment. Consistent with industry practices, RLS does not support analytical testing for toxic substances. Information is based on the knowledge of materials used in the finished products and information provided by suppliers.
