LinACE™ absolute shaft encoder

Dimensions and tolerances in mm.

LinACE Ø6 mm shaft with axial cable exit

**WARNING – ESD protection**

Readhead is ESD sensitive - handle with care. Do not touch wires without proper ESD protection or outside of ESD controlled environment.

**NOTES**

- The shaft must be inserted with the alignment as shown in the drawing.
- Shaft/readhead fit: +0.045 / +0.010.
- The encoder shaft can be rotated independently of the linear travel.
- Use an installation kit if the mounting surfaces are not perfectly parallel (see appendix 2 on page 17).
