Dimensions

LinACE™ absolute shaft encoder

Dimensions and tolerances in mm.

LinACE Ø8 mm shaft with radial cable exit

WARNING – ESD protection
Readhead is ESD sensitive - handle with care. Do not touch wires without proper ESD protection or outside of ESD controlled environment.

NOTES
- The shaft must be inserted with the alignment as shown in the drawing.
- Shaft/readhead fit: +0.050 / +0.010.
- The encoder shaft can be rotated independently of the linear travel.
- Use an installation kit if the mounting surfaces are not perfectly parallel (see appendix 2 on page 17).
